Goal: I studied in Australia and want to compare pathways

Current Country: Australia

Passport Country: India

Age: 29

Occupation: Software Engineer

English Level: IELTS 8 superior

Sponsor/Family: Employer sponsor context and regional family sponsor context

Biggest Concern: points, documents, and pathway progression

Executive Summary

- This report compares 189, 500, 485, 482, 190, 491 in one view, bringing study, graduate, employer-sponsored, and skilled pathway signals together.
- The partial points signal is 50; this mathematical signal may affect the relative position of points-tested pathways.
- Skills assessment, nomination context, sponsorship details, and evidence preparation can materially change the pathway strength comparison.

Pathway Strength Comparison

Skilled Independent Visa (189)

Strength: Moderate signal

Friction: High

Evidence load: High

Typical path: Invitation-based skilled pathway

Signal reasons:

- Points-tested skilled pathway context
- Occupation and English inputs affect signal

Limiting factors:

- Invitation round settings may affect pathway
- Points estimate may be incomplete based on provided information

Evidence status:

- English evidence: Provided
- Occupation details: Provided
- Skills assessment: Provided
- Points table position: Unclear

Student Visa (500)

Strength: Stronger signal

Friction: Medium

Evidence load: Medium

Typical path: Study pathway

Signal reasons:

- Study pathway context

Limiting factors:

- Course enrolment, OSHC and financial evidence context may affect pathway

Evidence status:

- Course / CoE: Typically required
- OSHC: Typically required
- Financial evidence: Typically required
- Passport country: Provided

Temporary Graduate Visa (subclass 485) (485)

Strength: Moderate signal

Friction: Medium

Evidence load: Medium

Typical path: Post-study temporary graduate pathway

Signal reasons:

- Post-study temporary graduate pathway context

Limiting factors:

- Recent Australian study, age, English, AFP check and insurance context may affect pathway

Evidence status:

- Recent Australian study: Typically required
- English evidence: Provided
- AFP check: Typically required
- Health insurance: Typically required

Skills in Demand Visa (482)

Strength: Stronger signal

Friction: Medium

Evidence load: High

Typical path: Employer-sponsored work pathway

Signal reasons:

- Employer-sponsored work pathway context

Limiting factors:

- Employer sponsor context is central to this pathway

Evidence status:

- Employer sponsor context: Missing
- Occupation details: Provided
- English evidence: Provided
- Skills assessment: Provided

Skilled Nominated Visa (190)

Strength: Moderate signal

Friction: High

Evidence load: High

Typical path: State or territory nomination pathway

Signal reasons:

- Skilled nomination pathway context

Limiting factors:

- State or territory nomination settings may affect pathway

Evidence status:

- English evidence: Provided
- Occupation details: Provided
- Skills assessment: Provided
- Points table position: Unclear

Skilled Work Regional Visa (491)

Strength: Moderate signal

Friction: Medium

Evidence load: High

Typical path: Regional provisional pathway

Signal reasons:

- Regional skilled pathway context

Limiting factors:

- Regional nomination or relative sponsorship context may affect pathway

Evidence status:

- English evidence: Provided
- Occupation details: Provided
- Skills assessment: Provided
- Points table position: Unclear

Confidence Explanation

Confidence is stronger because age (29), English level, occupation (Software Engineer), and passport country (India) are provided, while some pathway-specific evidence still needs separate review (partial points signal: 50). This is general information only.

Evidence Readiness Snapshot

Identity and passport: Provided

Passport country was provided; identity documents are typically prepared separately.

English evidence: Provided

English level was provided in the form.

Occupation and skills evidence: Provided

Occupation was provided; skills assessment or work evidence may still vary by pathway.

Study completion evidence: Unclear

Evidence of completing an Australian qualification from a CRICOS-registered institution is typically required for the 485 visa.

Police clearance and character evidence: Typically required

Australian police clearance is typically required for the 485 visa. Overseas police certificates may also be required.

Sponsorship evidence: Provided

Sponsorship context can be central for employer or partner pathways.

Health, character, and translation documents: Typically required

Health checks, police certificates, and translations can vary by pathway and individual circumstances.

Points Booster Simulator

Estimated Points: 50

This scenario reflects a mathematical change only and does not represent eligibility or outcome.

If a points-table factor changes, the mathematical score position may change as follows.

190 nomination points scenario: +5

Resulting mathematical estimate: 55

If the 190 state or territory nomination factor is present, the mathematical score position may change by +5.

491 nomination/sponsorship points scenario: +15

Resulting mathematical estimate: 65

If the 491 nomination or relative sponsorship factor is present, the mathematical score position may change by +15.

Financial Roadmap

Government application charge: From AUD 4,910 (main applicant)

Official government fees and estimated third-party cost categories. Fees may change; official sources should be reviewed.

English test cost category: Variable / depends on provider

Provider, location, and repeat attempts can affect this cost category.

Skills assessment cost category: Variable / depends on assessing authority

Occupation and assessing authority can affect the cost range.

Health checks / police certificates: Variable / depends on country and provider

Personal history and application location may change this cost category.

Translation / document preparation: Variable / depends on document volume

Non-English documents and document volume can affect this cost category.

Agent / professional review: Variable / depends on provider

For those who choose to seek input from a registered migration agent or legal practitioner, this cost category varies by individual circumstances and provider.

Bridge to PR / Typical Progression Pathways

Typical progression pathways in the Australian visa system may include:

Student pathway context: 500 -> 485 189/190/491

After a student pathway, graduate and skilled migration options may be considered together in some profiles. This is general information only and depends on individual circumstances.

Typical post-485 options: 485 -> 189 / 190 / 491

After the 485 Temporary Graduate visa, skilled migration pathways may be relevant in some profiles. This does not promise permanent residence and depends on individual circumstances.

Employer sponsorship context: 482 -> Employer-sponsored permanent pathways

After 482, employer-sponsored permanent pathways may be relevant in some cases; criteria and employer context matter.

Regional progression context: 491 -> 191

This may be considered a typical system progression after the relevant period if criteria are met.

Pathway Friction / Reality Check

Skilled Independent Visa (189): Reality check

Invitation rounds and points competition may affect this pathway.

Student Visa (500): Reality check

Course enrolment, OSHC, and genuine student settings may affect this pathway.

Temporary Graduate Visa (subclass 485) (485): Reality check

Employment outcomes and transition to skilled pathways may affect this pathway.

Skills in Demand Visa (482): Reality check

Employer sponsorship context is central to this pathway.

Skilled Nominated Visa (190): Reality check

State or territory nomination settings may affect this pathway.

Skilled Work Regional Visa (491): Reality check

Regional requirements and nomination or sponsorship context may affect this pathway.

Risk Indicators

[High] Points-table position below minimum threshold

Based on available information, estimated points are 50. Skilled pathways generally list 65 as the minimum and invitation thresholds may be higher. This is a partial estimate only and depends on individual circumstances.

[Medium] Document readiness concern

The stated concern appears to relate to document readiness. Reviewing the relevant document categories before starting a visa process may be relevant.

Suggested Next Steps

- Review the official visa information for the possible pathways shown.
- Consider using the points calculator to review the current points position.
- Employer sponsorship context is an important factor to clarify before assessing the 482 pathway.
- Preparing relevant document categories is generally considered a useful step before a detailed pathway assessment.
- Consider speaking with a registered migration agent for advice that depends on individual circumstances.

Factors that may affect pathways

- For points-tested pathways, invitation levels and state/territory priorities may fluctuate by period.
- Employer alignment with role, salary, and sponsorship settings can affect pathway viability signals.
- Official criteria and policy updates can periodically shift comparative pathway signals.
