For the other requirements the last column says only whether information was entered, not entered, or not collected by the form: it is never a statement that a requirement is met.

State and territory programs

Published information for all eight states and territories in a fixed order, as recorded in our sources. The occupation-list line matches the occupation you entered (supplied by you) against each published list. No state is left out or ordered by your details; a list entry is published information, not a nomination. State and territory programs change often: each entry records what the source said on the date checked, and is not a statement of current status.

Australian Capital Territory (ACT)

Program status (source checked 13 October 2026)	High Demand
Occupation-list status (190 / 491)	On the list: 190, 491
Key published conditions, as recorded in the source checked on 13 October 2026	• ACT nomination runs through the merit-ranked Canberra Matrix, not a simple points cutoff -- the ACT's 2026-27 allocation had not yet been confirmed by the Australian Government (2025-26 was 800 places for subclass 190 and 800 for subclass 491, all used), the first 2026-27 invitation round was recorded as scheduled for the week starting 12 October 2026 (subclass 190 only), and demand consistently exceeds the allocation. • Checked against the ACT Migration pages (www.act.gov.au/migration) on 13 October 2026. • 2026-27 allocation: was not yet confirmed by the Australian Government. 2025-26 allocation was 800 places for subclass 190 and 800 for subclass 491; total allocation remaining at 30 June 2026 was 0.

New South Wales (NSW)

Program status (source checked 13 October 2026)	Suspended / Closed
Occupation-list status (190 / 491)	On the unit-group list: 190, 491
Key published conditions, as recorded in the source checked on 13 October 2026	• New South Wales' Skilled Nominated (190) and Skilled Work Regional (491) pages both carry a notice that applications are closed for the current program year because all available nomination places have been fully allocated (the notice does not name the program year). Already-submitted applications continue to be assessed; NSW is reviewing its program settings and eligibility criteria for the next program year and had not published new settings on 13 October 2026. • Checked against the NSW Government pages on 13 October 2026. • Invitation-only: candidates cannot apply directly for NSW nomination. Invitation rounds have no announced dates; the date an EOI is submitted does not affect the outcome.
Data checked	13 October 2026

The NT's 2026-27 program is closed to new applications ("sufficient applications received") for subclass 190 and all offshore streams. The exception is subclass 491 for onshore applicants who meet the NT Graduate or NT Resident criteria and have a visa deadline before 30 September 2027: a substantive visa expiring on or before 30 September 2027 and not eligible for subclass 485; turning 45 on or before 30 September 2027; or 491 points falling below 65 because of a birthday on or before 30 September 2027. • Status (2026-27): Closed to new applications, with a narrow onshore 491 exception -- confirmed on the official Northern Territory page on 13 October 2026. • The Northern Territory is not counted as open in the nomination-availability count.

- Contract of employment (General stream, 2025-26 page): a contract of employment in the nominated (or a closely related) occupation for full-time employment in Western Australia, for at least six months from the date of the application for State nomination; full-time means an average of at least 35 hours per week; not applicable to subclass 491 applicants, nor (WASMOL Schedule 2) to applicants invited through a WA building and construction industry occupation.
- Graduate stream study requirement (2025-26 page): at least one qualification gained in WA, studied at an accredited WA educational institution, full-time, in a face-to-face (on campus) learning environment, for at least two academic years.
- 2025-26 rules: both onshore (WA-resident) and offshore (interstate/overseas) candidates are eligible; ranking prioritises WA residents, then priority-industry occupations (building & construction, healthcare & social assistance, hospitality & tourism, education & training), then all other sectors, then EOI points, then submission date.
- 2025-26 rules: at least 1 year of Australian OR overseas work experience in the nominated (or closely related) occupation within the last 10 years.

• Nomination application fee (2025-26 page): AUD 200, non-refundable; applicants have 28 calendar days to lodge the application once invited.
• Invitations were anticipated monthly in 2025-26. 2025-26 program-to-date total: 8,162 invitations issued across General and Graduate streams (per the saved 'Invitations issued' chart, latest full month March 2026).
• If an EOI seeks nomination for both subclass 190 and 491, WA generally invites for subclass 491 first (typically a higher EOI points score).
• WA General stream (WASMOL Schedule 2): for subclass 190 you need a full-time employment contract in Western Australia in your nominated (or a closely related) occupation, for at least six months from the date you apply for State nomination; this does not apply to subclass 491 (WA State Nominated Migration Program 2025-26, p. 5, 9).
• WA Graduate stream: you must have studied in Western Australia at an accredited WA institution, full-time and on campus, for at least two academic years (WA State Nominated Migration Program 2025-26, p. 13).
