AI-Powered Migration Strategy & Viability Report

Prepared for	Ahmet Yilmaz
Report Date	8/3/2026
Report ID	LVA-20260803-AHMETYILMA
Occupation	Software Engineer

Software Engineer

Migration Strategy Prepared for Ahmet Yilmaz

80 / 65 points threshold
Points threshold exceeded

This report is a compliance-driven audit of your visa viability against binding 1 July 2026 regulatory thresholds, state nomination signals, and evidentiary requirements.

Full Visa Readiness Report

This report is a compliance-driven audit of your visa viability against binding 1 July 2026 regulatory thresholds, state nomination signals, and evidentiary requirements.

User Information	Executive Summary
Generated Date 8/3/2026 Name Ahmet Yilmaz Occupation Software Engineer Age 30 Current Country Australia English Level PTE 79+ Superior English Goal Skilled migration throug...	• This report compares 189, 190 and 491 in one view, with a high-potential skilled migration score profile. • The current points signal is 80; this supports a stronger relative position for points-tested pathways. • Skills assessment, nomination context, sponsorship details, and evidence preparation can materially change the pathway strength comparison.

EOI STATUS: READY.

Ahmet Yilmaz — Readiness Report Summary

Ahmet Yilmaz, this report evaluates your profile for Software Engineer against the Australian immigration system.
Your estimated score is 80 points. The minimum threshold for 190 is 65 points.
You have exceeded the threshold! You can now focus on the application process.

Key Findings
• Skills assessment not yet completed — this is a mandatory step. • Strong English level — earning extra points. • Age points are in good shape.

Ahmet Yilmaz, your profile is strong! You can proceed directly to the application process. Start gathering your documents.
This analysis is based on the information you provided. Missing data may affect accuracy.

Ahmet Yilmaz — Your Points Breakdown

Ahmet Yilmaz, your estimated total is 80 points. Target: 65 points. You have exceeded the points threshold!

Category	Potential Points	Claimable Points	Action / Status
Age (25-32 age bracket)	30	30	Complete
English Language (PTE 79+ Superior English)	20	20	Complete
Skilled Employment (Overseas, 5 yrs)	15	10	Complete
Skilled Employment (Australian, 1 yrs)	20	5	Complete
Educational Qualifications (Bachelor)	20	0	Requires Overseas Qualification Recognition
Educational Qualifications (Bachelor): Overseas qualification — recognition required			
Partner Skills (Partner status not provided)	10	0	Skills/English Not Verified
Partner Skills (Partner status not provided): Partner status not provided			

TOTAL : 80 / 65 points

Ahmet Yilmaz, you have exceeded the points threshold! You can now focus on the application process.

Points Improvement Tips

- State nomination: Subclass 190 adds +5, 491 adds +15 points.

- Additional Strategies:
- NAATI certification: +5 pts (bilingual evidence)
 - Professional Year program: +5 pts (Australian study)
 - Regional study/living: +5-15 pts
 - Job offer: +5-15 pts (with LMIA)
 - Masters/PhD degree: +10-20 pts

Skills Assessment

Not Done

Occupation: Software Engineer

Assessing Authority: Relevant assessing authority

Skills assessment is mandatory for Australian skilled migration.

Without assessment, your points cannot be calculated and you cannot apply.

Next step:

Apply for skills assessment through the Relevant assessing authority website.

Your Personalized Application Guide

Ahmet Yilmaz, based on your current profile, here is your status:

Occupation: Software Engineer

Skills Assessment: Not Done

Estimated Points: 80 pts

Age: 30

English Level: PTE 79+ Superior English

Not Done

Actions in priority order:

Complete Skills Assessment

Skills assessment for Software Engineer has not been completed yet. This is a mandatory step for your visa application. Identify your assessing authority and apply immediately.

Consider 485 Graduate Visa Pathway

If you studied in Australia, the 485 Graduate Visa could be a pathway. It gives you Australian work experience which adds points.

Prepare Your Documents

Start gathering all documents now: passport, language test results, employment reference letters, educational documents, police clearances.

Estimated timeline: Profile to application 6-12 months, application to decision 6-12 months. Total: 12-24 months.

Detailed Timeline:

Month 1-2: Skills assessment application and language test

Month 3-4: Wait for assessment results, create EOI

Month 5-8: Wait for invitation (depends on your points)

Month 9-10: Prepare application and gather documents

Month 11-12: Lodge application

Month 13-24: Assessment process and decision

Document Preparation Checklist:

- Valid passport
- Language test results
- Skills assessment (required)
- Employment reference letters
- Educational documents
- Police clearances
- Health examination (after invitation)
- English evidence

Estimated Costs:

- Skills assessment: AUD 500-1,200
- Language test: AUD 400-550
- Application fee: AUD 4,640 (primary)
- Additional partner/child: AUD 2,320 each
- Health examination: AUD 400-600
- Estimated total: AUD 6,000-8,000

Questions Relevant to You

How do I get a skills assessment for Software Engineer?

Assessment for Software Engineer is done by the relevant authority. The process takes 8-12 weeks. Required documents: employment letters, degree, passport.

Can I apply without a skills assessment?

No, you cannot apply for `{country == 'AU' ? 'Australian' : 'Canadian'}` skilled migration without a skills assessment. This is mandatory.

How long does the application process take?

Profile to application: 6-12 months, application to decision: 6-12 months. Total: 12-24 months.

What is the total cost of the application process?

Skills assessment: AUD 500-1,200. Language test: AUD 400-550. Application fee: AUD 4,640. Total: AUD 6,000-7,000.

Can my partner be included in the application?

Yes, your partner can be included as a secondary applicant. Additional documents (relationship evidence) and fees apply.

How is my work experience verified?

You need a signed letter from your employer. It must include ANZSCO/NOC code, duty descriptions, duration, and salary.

Can I get a bridging visa?

Yes, if you apply while in Australia, you get a Bridging Visa A. This allows you to continue working after your current visa expires.

What if my application is refused?

Act on the reasons stated in your refusal letter. Merit review and judicial review options are available. Professional help is recommended.

Can I speed up the processing time?

Unfortunately, processing cannot be expedited. However, submitting complete and accurate documents prevents delays.

Glossary — How to Read This Report

Terms that repeat throughout this report are defined once below. Terms specific to a single section are explained inline within that section.

Confidence

Confidence indicates how well-verified your key profile inputs are and whether they meet the relevant criteria -- rated Low, Medium, or High.

Strength

Signal strength reflects how closely your profile matches the typical pattern of applicants who succeed on this pathway -- distinct from Confidence (data verification) or Friction (points/benchmark gap).

Friction Level

Friction Level indicates the gap between your profile's points and the current invitation benchmark for this pathway -- rated Low, Medium, High, or Extreme.

Signal Confidence

Signal confidence indicates how much weight this data point should be given -- not how well the profile matches the pathway.

Evidence Load

Evidence load reflects the volume and complexity of documentation this pathway typically requires -- not whether that evidence has been provided yet (see Evidence status).

Evidence Status

Evidence status shows whether a specific document or proof point has actually been supplied in this profile -- not how much evidence is required overall (see Evidence load).

Points Gap

Points gap is the numeric distance between your profile's estimated points and the threshold this pathway currently requires.

Hard Gate

A Hard Gate is a binding eligibility rule -- an age cap, salary floor, points minimum, or tenure requirement -- that, if breached, makes a pathway ineligible regardless of any other favorable signal.

Visa Viability Ranking

The ranking below orders every possible visa pathway from strongest to weakest based on compliance status, points threshold, and profile fit.

491 Visa - 89% Match Highly Recommended Pathway (Estimated Base Points: 80)	HIGH POTENTIAL
189 Visa - 74% Match Alternative Option (Estimated Base Points: 65)	HIGH POTENTIAL
190 Visa - 64% Match High Risk / Low Probability (Estimated Base Points: 65)	HIGH POTENTIAL
Skills in Demand Visa - Gate/eligibility-based pathway The employer sponsor context indicates the 482 Skills in Demand Visa may be a possible pathway. This depends on individual circumstances.	Potential fit

State Signal Radar

State nomination signals visualized by profile match score.

SA 90%

WA 86%

ACT 84%

VIC 82%

NSW 78%

TAS 72%

NT 70%

QLD 2%

Top 2 Recommended States

1. SA - South Australia (High Demand)

South Australia is one of the stronger nomination fits based on your profile, current location, and occupation signal.

2. WA - Western Australia (Open for Offshore)

Western Australia is one of the stronger nomination fits based on your profile, current location, and occupation signal.

State nomination settings change frequently. Treat this as a directional eligibility heatmap, not a formal invitation guarantee.

State Nomination Tracker

The following matrix analyzes your profile against current state and territory demand signals, nomination posture, and evidence fit.

State	Status	Match	Note
SA South Australia	High Demand	90%	Offshore pathways usually need stronger work experience evidence

State	Status	Match	Note
WA Western Australia	Open for Offshore	86%	Regional flexibility strengthens the nomination case
ACT Australian Capital Territory	High Demand	84%	Matrix-style ranking favours strong employment and Canberra ties
VIC Victoria	Onshore Only	82%	Usually requires an onshore profile.; Strong preference for applicants already contributing in Victoria
NSW New South Wales	High Demand	78%	Competitive invitation environment; Occupation ceilings can move during the program year
TAS Tasmania	Onshore Only	72%	Usually requires an onshore profile.; Your occupation is not a clear priority keyword match in this state.
NT Northern Territory	Open for Offshore	70%	Your occupation is not a clear priority keyword match in this state.; Commitment to living in the territory is typically expected
QLD Queensland	Closed	2%	Program settings can reopen, but current intake is treated as closed

State nomination settings change frequently. Treat this as a directional eligibility heatmap, not a formal invitation guarantee.

Lodgement-Ready Checklist

This checklist lists the steps typically expected before lodging an application.

IMPORTANT

Skills assessment pathway alignment with ACS

Skills assessment timing can influence points claims, nomination readiness, and progression from planning context to a lodgement-capable profile.

READY

South Australia pathway EOI alignment considerations

South Australia is currently indicated as the strongest state nomination signal; EOI settings and evidence packaging are typically reviewed against that pathway's criteria.

This checklist is an educational planning reference and can be refreshed whenever points, English results, or state pathway context changes.

Signal Snapshot

Strongest signal	Skills in Demand Visa (482)
Secondary signals	Skilled Work Regional Visa (491), Skilled Nominated Visa (190)
Confidence	Stronger

What May Change Your Position

Nomination context

State nomination or regional context may affect pathway signals.

Sponsor or relationship evidence

Sponsor or relationship evidence may change the signal for related pathways.

Structured Pathway Comparison

The following comparison places each possible pathway beside its confidence, friction, and practical readiness signals.

Visa	Confidence	Friction Level
Skilled Nominated Visa (190)	Medium	LOW
Skilled Independent Visa (189)	High	EXTREME
Skilled Work Regional Visa (491)	Medium	LOW
Skills in Demand Visa (482)	High	HIGH

Friction Level: LOW: Your profile is at or above recent benchmarks for this pathway -- standard evidence is expected, no major gap to close.

Friction Level: HIGH: A meaningful gap exists between your profile and recent benchmarks -- significant additional evidence or profile improvement is likely required.

Friction Level: EXTREME: A substantial gap exists between your profile and recent invitation benchmarks -- multiple compounding factors currently work against this pathway.

Confidence: Medium: Moderate alignment; some profile inputs are assumed or need additional details.

Confidence: High: Strong alignment; key profile inputs are verified, and relevant criteria are met.

Skilled Nominated Visa (190) - Reality Check: Historical invitation data indicates the current score (85) is at or above the recent 190 reference (85).

Skilled Independent Visa (189) - Reality Check: Historical invitation data indicates the current score (80) sits more than 10 points below the recent 189 reference (95). Historical 189 patterns for this occupation show stronger selection pressure on profiles below 90 points.

Skilled Work Regional Visa (491) - Reality Check: Historical invitation data indicates the current score (95) is at or above the recent 491 reference (75).

Skills in Demand Visa (482) - Reality Check: Employer sponsorship dependency creates a practical bottleneck even with a valid profile. ACS deducted experience may reduce claimed skilled years.

Pathway Strength Comparison

Pathway strength is assessed against binding regulatory thresholds first; any Hard Gate violation overrides the underlying signal and forces the pathway to Ineligible.

Typical Path: The most common scenario followed by applicants who succeed on this pathway.

Signal Reasons: The main favorable factors contributing to this signal-strength assessment.

Limiting Factors: The main factors currently weakening this pathway or requiring additional evidence/improvement.

Skilled Nominated Visa (190)

Strength: Moderate signal

Friction: Low

Evidence load: High

Typical path: State or territory nomination pathway

Signal reasons:

- Skilled nomination pathway context

Limiting factors:

- State or territory nomination settings may affect pathway

Evidence status:

- English evidence: Provided
- Occupation details: Provided
- Skills assessment: Provided
- Points table position: Unclear

Skilled Independent Visa (189)

Strength: Moderate signal

Friction: Extreme

Evidence load: High

Typical path: Invitation-based skilled pathway

Signal reasons:

- Points-tested skilled pathway context
- Occupation and English inputs affect signal

Limiting factors:

- Invitation round settings may affect pathway
- Points estimate may be incomplete based on provided information

Evidence status:

- English evidence: Provided
- Occupation details: Provided
- Skills assessment: Provided
- Points table position: Unclear

Skilled Work Regional Visa (491)

Strength: Moderate signal

Friction: Low

Evidence load: High

Typical path: Regional provisional pathway

Signal reasons:

- Regional skilled pathway context

Limiting factors:

- Regional nomination or relative sponsorship context may affect pathway

Evidence status:

- English evidence: Provided

- Occupation details: Provided
- Skills assessment: Provided
- Points table position: Unclear

Skills in Demand Visa (482)

Strength: Stronger signal

Friction: High

Evidence load: High

Typical path: Employer-sponsored work pathway

Signal reasons:

- Employer-sponsored work pathway context

Limiting factors:

- Employer sponsor context is central to this pathway

Evidence status:

- Employer sponsor context: Missing
- Occupation details: Provided
- English evidence: Provided
- Skills assessment: Provided

Friction Level: LOW: Your profile is at or above recent benchmarks for this pathway -- standard evidence is expected, no major gap to close.

Friction Level: HIGH: A meaningful gap exists between your profile and recent benchmarks -- significant additional evidence or profile improvement is likely required.

Friction Level: EXTREME: A substantial gap exists between your profile and recent invitation benchmarks -- multiple compounding factors currently work against this pathway.

Confidence Explanation

Confidence is stronger because the mock QA profile includes age, Superior English, Software Engineer 261313, and an 80-point signal. This is general information only.

Evidence Readiness Snapshot

Identity and passport: Provided

Passport country was provided; identity documents are typically prepared separately.

English evidence: Provided

English level was provided in the form.

Occupation and skills evidence: Provided

Occupation was provided; skills assessment or work evidence may still vary by pathway.

Sponsorship evidence: Provided

Sponsorship context can be central for employer or partner pathways.

Health, character, and translation documents: Typically required

Health checks, police certificates, and translations can vary by pathway and individual circumstances.

Points Booster Simulator

Estimated Points: 80

This scenario reflects a mathematical change only and does not represent eligibility or outcome.

The Australian points test (Schedule 6A, Migration Regulations 1994) uses fixed numerical gains per factor. Scenarios below are based on official points table coefficients — not estimates. Australian-origin points note: Australian employment points apply only where the

skilled work was completed within 10 years before invitation, for at least 20 hours per week, while holding a substantive visa or Bridging A/B visa. Australian study / regional study points assume the qualification satisfied the Australian study requirement and, for regional points, was completed at a designated regional campus rather than by distance education.

Scenario	Points Change	New Total
NAATI CCL Community Languages credential	+5	70
Australian Professional Year program	+5	70
Single applicant or partner with skilled qualifications + Competent English	+10	75
190 State or Territory Nomination	+5	70
491 Regional Nomination or Eligible Relative Sponsorship	+15	80
NAATI CCL Community Languages credential + Australian Professional Year program	+10	75
NAATI CCL Community Languages credential + 491 Regional Nomination or Eligible Relative Sponsorship	+20	85
NAATI CCL Community Languages credential + Single applicant or partner with skilled qualifications + Competent English + 491 Regional Nomination or Eligible Relative Sponsorship	+30	95
Australian Professional Year program + Single applicant or partner with skilled qualifications + Competent English + 491 Regional Nomination or Eligible Relative Sponsorship (recent Subclass 189 invitation benchmark:	+30	95
Australian Professional Year program + 491 Regional Nomination or Eligible Relative Sponsorship (recent Subclass 190 invitation benchmark: 85 pts)	+20	85
NAATI CCL Community Languages credential + 190 State or Territory Nomination (recent Subclass 491 invitation benchmark: 75 pts)	+10	75

Financial Roadmap

The figures below are an estimated breakdown of the major official and living-cost items you may encounter during the application process.

Category	Amount	Note
----------	--------	------

Category	Amount	Note
Government Visa Application Charge (VAC)	From about AUD 6,140 (main applicant)	Official visa application charges vary by subclass and were updated for the post-1 July 2026 schedule. Subclass 482 base charge: AUD 4,015. Subclass 189 base charge: AUD 6,135. Subclass 190/491 base charge: about AUD 6,140. Charges can be indexed periodically and should be verified before lodgement.
English Language Test (IELTS / PTE / OET)	AUD 385–590 (varies by test and location)	Tests accepted for Australian migration include: IELTS Academic or General Training (~AUD 385–405 per attempt), PTE Academic (~AUD 375–395), OET (Occupational English Test, used by healthcare occupations, ~AUD 587), and TOEFL iBT (~AUD 340–390, accepted for some streams). Minimum Competent English thresholds: IELTS 6.0 in all four bands, PTE 50 in all bands. Achieving Superior English (IELTS 8.0+ in all four bands or PTE 79+) unlocks 20 additional points in the Australian points test — a significant investment if retesting is needed. Scores must be no more than 3 years old at time of visa grant.
Second-instalment risk (dependant English status)	About AUD 4,890 per dependant (not indicated by your provided family status)	Where a dependant aged 18+ cannot show functional English, a second instalment can apply per dependant. Your provided family status does not indicate this risk, but it should be reassessed if circumstances change.
Skills Assessment (by Assessing Authority)	AUD 530–900+ (varies by authority and occupation)	The assessing authority is determined by your ANZSCO occupation code: IT/ICT roles (ANZSCO Major Group 26) ACS (AUD 530–665, 6–12 weeks); Engineering Engineers Australia (AUD 735–900, 4–10 weeks); Healthcare professions AHPRA (AUD 890+, requires registration); Accounting CPA Australia, CAANZ, or IPA (AUD 600–800); General professional and trade occupations VETASSESS (AUD 850, 10–16 weeks). All assessments require certified copies of qualifications, official transcripts, and detailed employment reference letters specifying duties, dates, and hours worked. ACS requires a minimum of 1 year of relevant IT work experience in the past 8 years. Negative assessment outcomes can be challenged or a re-assessment sought, which incurs additional fees (typically 50–80% of the original charge).

Category	Amount	Note
Health Examination (eMedical)	AUD 300–500+ (per person, varies by age and country of residence)	Every applicant must complete a medical examination through Bupa Medical Visa Services, the panel provider approved by the Department of Home Affairs. Indicative costs: adults AUD 300–400; children under 15 approximately AUD 150–250. The examination includes a chest X-ray (for applicants 11+), blood tests, and a general physical assessment. Medical results are electronically transmitted to the Department of Home Affairs via the eMedical system — there is no paper report to submit. Results are valid for 12 months. Applicants from tuberculosis-prevalent countries may require additional chest monitoring, extending the process by 6–12 months.
Police Clearance Certificates	AUD 42–200+ (per person, varies by country)	Every applicant aged 18+ must provide police clearance certificates for every country where they have lived for 12 months or more in the past 10 years (for skilled visas). The Australian Federal Police (AFP) check costs AUD 42 and is processed online within 15 business days. International certificates vary widely: United Kingdom (ACPO check, ~GBP 25), United States (FBI Identity History, ~USD 18 + fingerprint costs), India (state-level, ~INR 500–2,000 plus notarisation), China (~CNY 80–100 via local public security bureau). Non-English certificates must be translated by a NAATI-certified translator. Plan for 4–12 weeks lead time for overseas police clearances — start these before lodging your EOI.
NAATI-Certified Translation	AUD 80–200 per page (NAATI-certified translator)	All documents not in English must be translated by a NAATI-certified translator (National Accreditation Authority for Translators and Interpreters). Rates range from AUD 80 per page for simple personal documents to AUD 150–200 per page for technical or legal documents. For a typical visa application with 8–12 documents (transcripts, employment certificates, marriage certificate, police clearances), translation costs commonly total AUD 800–2,500. NAATI-certified translators can be located via the NAATI online register — never use uncertified translations as they will be rejected by the Department of Home Affairs.
Registered Migration Agent (RMA) or Immigration Lawyer	AUD 3,000–10,000+ (varies by visa type and case complexity)	Engaging a Registered Migration Agent (RMA) or immigration lawyer is not mandatory, but is strongly recommended for applications involving prior visa refusals, complex employment histories, or family members with health or character issues. Typical fee ranges: full EOI + 189/190/491 skilled application: AUD 3,000–8,000; state nomination assistance only: AUD 1,000–2,500; 482 employer-sponsored nomination and visa: AUD 5,000–10,000+. Verify any agent's registration via the MARA (Migration Agents Registration Authority) public register at mara.gov.au . Never pay upfront in full before the work commences.

Bridge to PR / Typical Progression Pathways

This section outlines the stages typically followed to move from your profile's current state to Permanent Residency (PR).

Primary progression pathways for your profile:

Employer sponsorship context: 482 -> Employer-sponsored permanent pathways

After 482, employer-sponsored permanent pathways may be relevant in some cases; criteria and employer context matter.

Regional progression context: 491 -> 191

After obtaining a subclass 491 visa, you must live and work in a designated regional area for at least 3 years and meet taxable income requirements (currently AUD 53,900/year; refer to the Financial Roadmap) to progress to permanent residency (subclass 191).

State nomination progression: 190 EOI -> 190 Permanent Residency

Progressing through subclass 190 involves obtaining a state nomination (+5 points), leading directly to permanent residency.

Independent skilled progression: 189 EOI -> 189 Permanent Residency

For subclass 189, progression is purely points-based, leading directly to permanent residency upon invitation.

Other potential or alternative progression pathways:

Student pathway context: 500 -> 485 189/190/491

Taking a Student visa (500) to study in Australia can be an alternative route to unlock post-study graduate visas and eventual PR pathways. This requires additional financial investment and time.

Pathway Friction / Reality Check

This section shows how competitive each pathway is in practice -- where your profile stands against recent invitation benchmarks.

Skilled Nominated Visa (190): Reality check

State or territory nomination settings may affect this pathway.

Skilled Independent Visa (189): Reality check

Invitation rounds and points competition may affect this pathway.

Skilled Work Regional Visa (491): Reality check

Regional requirements and nomination or sponsorship context may affect this pathway.

Skills in Demand Visa (482): Reality check

Employer sponsorship context is central to this pathway.

Premium Sections

These sections provide deeper planning data beyond the core report.

Historical Invitation Trends

Software Engineer (261313)

The points and wait windows below reflect real results from this occupation's recent invitation rounds (the last invited point per subclass) — not a projection.

Subclass	Estimated Points	Estimated Wait
189	95	6-9 months
190	85	4-8 months
491	75	3-7 months

Subclass 189: this occupation was invited at 95 points in recent rounds — your estimated score is 15 points below that benchmark.
Subclass 190: this occupation was invited at 85 points in recent rounds — your estimated score is 5 points below that benchmark.
Subclass 491: this occupation was invited at 75 points in recent rounds — your estimated score is at or above that benchmark (by 5 points).
Trend estimates are analytical planning references only and do not guarantee invitation outcomes. Estimated invitation points and wait windows derived from 2025-2026 trend patterns. For planning context only.

Living Cost Projection

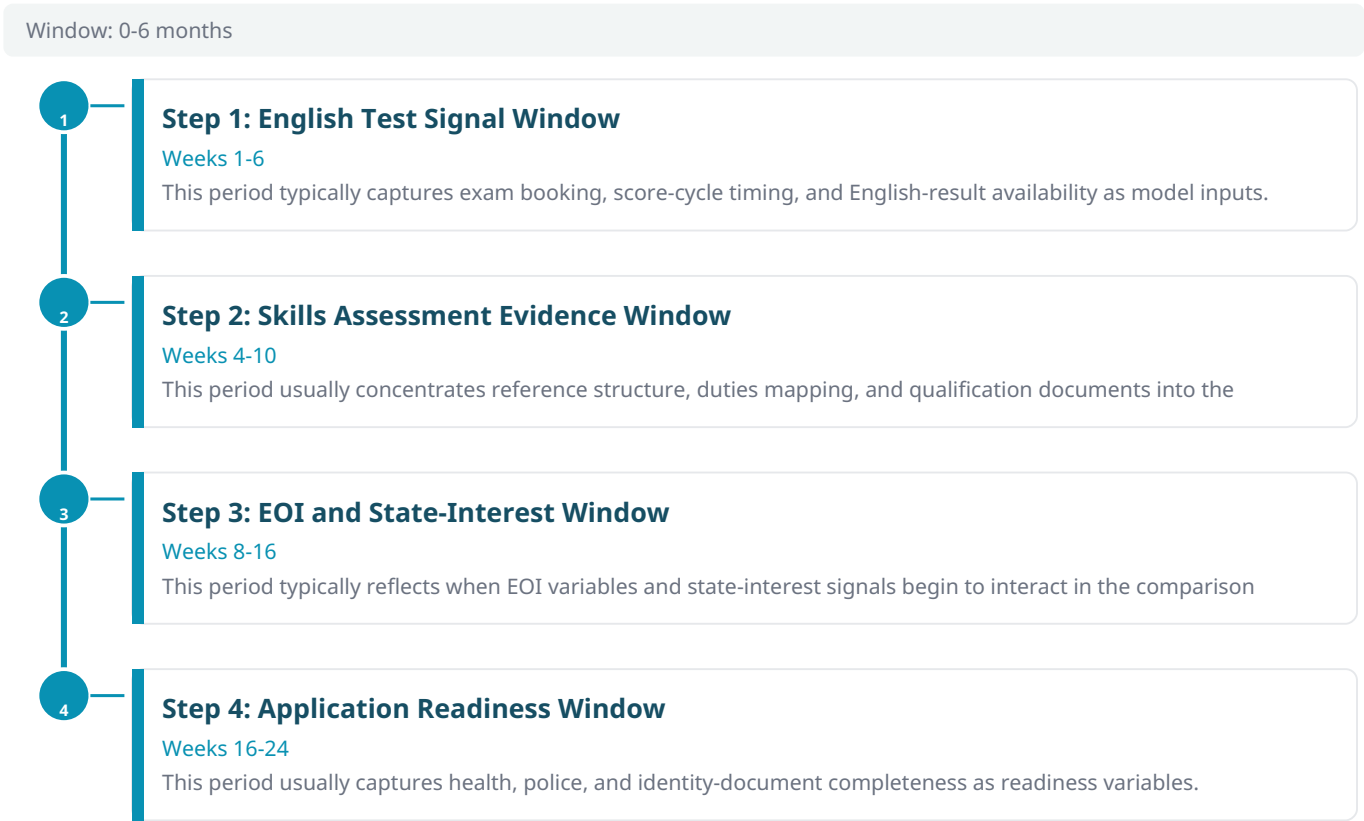

Sydney - Single (AUD)

Monthly Rent	Monthly Groceries	Monthly Transport	Monthly Total
2700	650	220	3570

Living cost projections are indicative monthly planning estimates and may vary by suburb and lifestyle.

Strategic Gantt Chart

The timeline below shows the steps in the application process and their typical time windows; it is a planning reference, not a personal commitment.

Critical Compliance Alerts

These are mandatory compliance flags, not optional notes. Each alert reflects a binding 1 July 2026 rule threshold and must be resolved or verified before a pathway can be relied upon.

Low - Limited risk indicators based on available information

The current dataset does not produce a dominant risk signal; additional inputs may increase comparison precision.

Second-instalment risk (dependant English status)

About AUD 4,890 per dependant (not indicated by your provided family status). Where a dependant aged 18+ cannot show functional English, a second instalment can apply per dependant. Your provided family status does not indicate this risk, but it should be reassessed if circumstances change.

Audit-Ready Proof Checklist

Documents required for submission including IMM digital portal uploads, proof-of-funds validation rules, and language test timeline constraints.

Identity

- ☐ Passport (6+ months validity)
- ☐ Birth Certificate (NAATI translated)

English

- ☐ Test Results (Less than 2 years old)

Skills

- ☐ Degree Certificates
- ☐ Academic Transcripts
- ☐ Employment References (aligned with Authority rules)

Gap Analysis & Considerations

The following items are educational priorities to consider while assessing application readiness.

1. IMPORTANT

Current signals place the profile within a comparatively workable range, but invitation-trend volatility remains a live variable in competitive pathways.

2. IMPORTANT

Document-category completeness is materially linked to report confidence and to how quickly the profile can be re-evaluated when source conditions change.

3. IMPORTANT

Evidence-bundle consistency appears to be the remaining variable separating a baseline-compatible profile from a stronger comparative position.

Downloadable PDF

Common Pitfalls

The most common reasons for application rejection and how to avoid them:

Skills Assessment: Wrong NOC/ANZSCO Code Selection

Choosing an occupation code that doesn't match your actual duties leads to rejection. Carefully read the 'lead activities' list for each code.

Skills Assessment: Insufficient Work Evidence

Employment letters must include ANZSCO code, duty descriptions, duration, and salary. Generic statements are rejected.

Language Test: Score Validity Issues

Language test results are valid for 2-3 years. Applying with an expired score results in automatic rejection.

Language Test: Wrong Test Selection

Different visa types accept different tests. For example, IELTS Academic is not accepted for General Skilled Migration.

Application: The 60-Day Rule

You must lodge your application within 60 days of invitation. This deadline cannot be extended. Prepare before you receive the invitation.

Financial: Insufficient Settlement Funds

You must demonstrate adequate funds for your family size. Insufficient financial evidence is a common rejection reason.

Health: Invalid Health Examination

Health examinations must be conducted by panel-approved doctors only. Examinations at non-approved clinics are invalid.

Legal: False or Misleading Information

Intentionally providing false information in your application results in a 10-year ban. Always provide truthful information.
